Profile

To use my skills in the best possible way to achieve the company's goals and to build a long-term career in this profession with opportunities for career growth.

Professional Experience

2023/04 – 2024/01

Pune, India

Python Developer

HiPaaS infotech PVT LTD

- Collaborated closely with cross-functional teams, and leads, including frontend developers and project managers, to ensure smooth integration of APIs and timely project delivery.
- Resolved bugs and issues through meticulous debugging and problem-solving.
- Actively participated in the development and attended daily stand-up meetings

Projects

FHIR Converter

- Led the development of the FHIR project, focusing on the conversion of diverse healthcare data formats (**HL7**, **EDI**, **CCDA**, **CSV**, **XML**) into standardized **FHIR (JSON)**.
- Developed and maintained backend systems while utilizing **PostgreSQL** and **SQL database** technology to store and retrieve data efficiently.
- Leveraged **FastAPI** framework to create robust **APIs**, enhancing the functionality of the backend systems and facilitating seamless communication with the frontend.
- Implemented efficient data processing using **Python**, leveraging Pandas for data manipulation and transformation tasks.

Technologies used: Python, FastAPI, Pandas, PostgreSQL, Microsoft SQL Server, Git & GitHub, Visual Studio Code

Academic Project - Weather App Forecast [🔗](#)

Build a responsive weather app using **HTML**, **CSS**, and **JavaScript**. In this weather project, users can enter any city name to get the weather forecast or simply click on the "Use Current Location" button to get the current location weather details, including temperature, wind speed, humidity, and more.
